

2013-2014
OSHE President, Rick McGuffey

Dear Colleagues,

First I would like to humbly thank the members for voting me in as your president. I am truly honored. As I reach the first quarter of my term as OSHE president, I want to update you on what I and your Board of Directors have been working on, on behalf of the organization.

First the Board has been working diligently on planning the education sessions for our Fall Conference. This is scheduled for September 19-20, 2013 in Salishan. The focus of this conference is the Planning, Design, and Construction process. We ask that members that have internal PM staffing that may not be OSHE members, to pass along the invitation to them and their designers and contractors, as this is a great opportunity to expose them to OSHE. If you haven't signed up, please contact Vicke Stephens at vickelee42@gmail.com.

Second, we have organized committees to better serve OSHE and its members. They are as follows:
Education Committee, chaired by Pres.-Elect, Greg Parks
Finance Committee, chaired by Treasurer, Elaine LaRoche
Membership Committee, chaired by Past President, Jeff Robbins
Recognition Committee, chaired by Board Member, Tom Bickett
Communications Committee, chaired by Board Member, Scott Carol

Anyone wanting to volunteer to help with any of these committees please contact the chair of that committee.

We are also working on a strategic plan for the organization to better plan for the future of OSHE. This is also a requirement for us to go to Platinum Level within ASHE, which currently we are at Gold Level.

We would also like to thank our Associate Members for their continued support of our profession and their sponsorship.

We encourage all of you to give us feedback and comments to better our organization. Remember, we work for you!

Thank you,

Rick McGuffey
2013-2014 OSHE President
